

Blackbaud Financial Edge NXT™ AUTOMATED INVOICE PROCESSING

Streamline your accounts payable workflows and increase operational efficiencies with EzeScan's Automated Invoice Processing with Blackbaud's FE NXT.

With advanced automated data capture and native integration with The Financial Edge NXT, EzeScan delivers the fastest, most cost effective method available for you to effortlessly capture both hard copy and electronic invoices into your accounts payable workflow. By reducing the time and cost associated with processing invoices, your organisation can minimise your operational expenditure.

EFFORTLESSLY CAPTURE YOUR INVOICES

Scan your invoices using EzeScan's professional production batch scanning capabilities, or import from a folder or direct from an email account. Save and reuse your scan job workflows including your digitisation standards and selected image enhancements. Numerous output image formats can be selected including TIF and text searchable PDF, PDF/A. EzeScan provides support for a large range of scanner hardware including multifunction devices. Scan and process as many invoices as you want without any volume based restrictions.

AUTOMATE YOUR INVOICE PROCESSING

By limiting the number of keystrokes or eliminating them altogether, EzeScan can deliver impressive productivity gains. With only one EzeScan job you can capture your selected invoice data values from all your vendor invoices without having to maintain multiple templates. Smart template technology allows EzeScan to automatically detect values from any location on your invoices. These values can be validated against Financial Edge NXT to ensure data integrity is maintained and errors are flagged. EzeScan provides scanning, image enhancement, data capture, validation and upload automation.

INTEGRATE WITH FE NXT

EzeScan provides 'out of the box' native integration with Blackbaud's The Financial Edge NXT. With a highly configurable interface, EzeScan provides rapid deployment measured in days, not months, eliminating the need for expensive and time consuming custom scripting or programming services.
