

Simplified Backscanning Solutions

The EzeScan Simplified Back Scanning solution is easily customisable to streamline your back scanning projects. Using the customisable Job, Index, OCR (Optical Character Recognition) and Upload interfaces, EzeScan can help make the toughest of scan jobs easy. Connect any TWAIN/ISIS compliant scanner or MFD to scan your documents as high quality, crystal clear images.

Using the OCR/Upload component running on EzeScan SERVER, your OCR task can run uninterrupted in the background while your operators can continue scanning the next batch of documents. Our customisable index profiles can be configured to allow the operator to index the documents as quickly as possible by setting workflow defaults of data and also options to remember data on a batch to batch basis.

Back scanning workflows can be configured to integrate with many popular EDRM systems and ODBC databases, or to generate custom data output for integration with legacy systems. EzeScan also provides a simple web search and retrieval tool for those customers not wanting to invest in a Records or Document Management solution.

The EzeScan Advantage

EzeScan provides fast, cost effective business solutions including simplified back scanning, automation of invoice processing, forms data extraction, mailroom/correspondence automation and highly integrated EDRMS imaging. Compatible with all major scanners and with thousands of installations in Australasia, North America and the UK, EzeScan is your ideal production batch capture solution.

Who is Outback Imaging?

Outback Imaging is a research and development company specialising in document capture and business process automation. EzeScan is Outback Imaging's flagship document capture product suite. Our products enable clients to substantially reduce the cost of deploying data capture and information processing solutions for unstructured, semi structured, structured hardcopy and electronic documents including email.

To request an evaluation copy of EzeScan or to see a product demonstration please contact your local EzeScan representative.
